Effective January 1st. 2024

Clydesdale Horse Association of Canada

Photos replace sketches on registration papers - 5 photos required

---

Photo # 1 - Right Side View
Tip: Picture the full right side, and position horse with legs parted for view of the inside of left legs

Photo # 2 - Full Front View
Tip: Move forelock to side for full view of facial markings
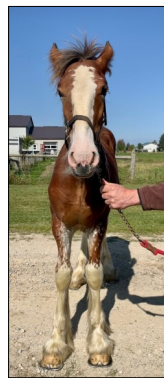

Photo # 3 - Left Side View
Tip: Picture the full left side, and position horse with legs parted for view of the inside of right legs

- Effective January 1st, 2024, owners will submit FIVE photographs for visual identification for all new registrations and transfers.

- THREE images - the left side, the right side and the full front views, will appear on the registration certificate. TWO further images - the rear view and the horse's muzzle, will be kept on the horse's file at the Canadian Livestock Records Corporation.

- Photographs should be clear, unedited, well lit and free from shadows or objects impeding the view. For full side images, take on level ground and position horse to include inside view of far leg. For full front image, move forelock for view of facial markings. For full rear image, move horse's tail for clear view of leg markings.

- Photographs can be taken with electronic device or traditional camera.

- New photographs will be required to complete all subsequent transfers of ownership.

- Either digital or physical photographs can be submitted to the Canadian Livestock Records Corporation. Digital pictures can be emailed long with the registration form, to Registrar Laura Lee Mills, lauralee.mills@clrc.ca, while physical pictures can be sent by mail.
